WILL TEND TO STIFFEN MEASURES NEW ACT WOULD AVERT STRIKES

Congress Quickly Passes the
Newlands-Clayton Measure.

SIGNED BY THE PRESIDENT

Expected That the Brotherhoods of
Conductors and Trainmen, Who Had
Threatened to Tie Up the Eastern
Roads, Will Prepare Their Case For
Arbitration—Wilson to Name Com-
missioners of Mediation.

Washington, July 16.—The New-
lands amendment to the Erdman me-
diation law to avert the threatened
strike of 100,000 trainmen, was enact-
ed by congress in the form desired by
both employes and railroad officials
at the White House conference.

It passed the senate and house
unanimously.

To expedite passage of the arbitra-
tion bill Republican Leader Mann
reached an agreement with the Demo-
cratic leaders to suspend all other
business.

The main features of the measure
passed by congress follow: Provides
for mediation of all disputes affecting
wages, hours of labor or conditions
of employment on common carriers;
creates a board of mediation and con-
ciliation composed of a commissioner,
salary \$7,500 yearly, assistant com-
missioner, salary \$5,000, and not more
than two other government officials
designated by the president, whose
offices in mediation may be invoked
by one party to a dispute; controver-
sies which can not be decided by this
mediation board may be referred to
an arbitration board of three or six
members; both parties to make writ-
ten agreement to arbitrators' de-
cisions; findings to be made a judg-
ment by United States courts.

The White House issued the follow-
ing statement:

"The president signed the New-
lands act as soon as it reached the
White House, and announced, through
his secretary, Mr. Tumulty, that he
would proceed as soon as possible,
consistent with the importance of the
appointments, to the selection of the
commissioners of mediation as pro-
vided in the act."

AT AN END

STREETCAR STRIKE ENDED

Wage Question at Lexington Will Be
Submitted to Arbitration.

Lexington, Ky., July 16.—The Lex-
ington street and interurban car
strike, which began last Friday at
midnight, ended when an agreement
was signed which gives almost a com-
plete victory to the union. All strik-
ing linemen and carmen are to be
taken back, but the wage questions
are to be left to arbitration. Strike-
breakers will be sent back to New
York.

CALLED IT OFF

Abandons Proposed Referendum On
Agricultural Commission Act.

Columbus, O., July 16.—Disrepute
into which the referendum has fallen
by reason of the exposure of fraud in
connection with the obtaining of sig-
natures to the referendum on the
Green workmen's compensation act,
together with the general apathy of
voters in signing petitions, has caused
the State Grange to abandon the pro-
posed referendum on the Cunningham
agricultural commission bill.

State Dairy and Food Commissioner
S. E. Strode was notified to this effect
by the state secretary of the grange,
of that organization's decision to
abandon the referendum. The de-
cision of the grange was reached at
a meeting in Cleveland.

THE "JULY" FLOODS

Zanesville, Ohio, July 6.—More than half of Mus-
kingum county's 2,400 bridges are gone as a result of the
March flood and the cloudburst of Sunday night and
Monday morning.

The March flood swept away the bridges over the
Muskingum and Licking rivers and destroyed all bridges
on the larger streams. The Sunday night cloudburst
completed the job by starting the small streams booming
and sweeping scores of structures into the rivers.

To the \$10,000,000 of property damage sustained in
the March floods must be added a million dollars or more
because of the cloudburst, this latter loss being suffered
almost entirely by the railroads and farmers.

MEXICO ENGAGES DEEP ATTENTION

Administration to Issue State-
ment on the Situation.

BRYAN CONFERS WITH WILSON

Secretary Declines to Say What the
Policy of the United States Govern-
ment Would Be Toward Any Euro-
pean Representations—Recognition
of the Huerta Administration Will
Be Withheld.

Washington, July 16.—Adminis-
tration officials admit that the situation
in Mexico and diplomatic inquiries
from Europe as to what the attitude
of this country would be toward its
neighbor on the south are engaging
their deepest attention.

Secretary Bryan had a two-hour
conference with President Wilson.
Mr. Bryan declined to say what the
policy of the United States govern-
ment would be toward any European
representations, but intimated that a
pronouncement on the situation might
be expected in a short time.

It is known that the administration
officials have been continually op-
posed to recognition of the Huerta
government until elections were held,
and it has been expected that any fu-
ture declaration to the foreign pow-
ers would be along the lines of the
Latin-American statement made by
President Wilson soon after he took
office.

In this he proclaimed that his ad-
ministration would seek to make a
basis for intercourse with Latin-
American countries the principle of
governments set up in orderly pro-
cesses, and "not upon arbitrary or
irregular force." He also stated that
the American government "would pre-
fer those who act in the interest of
peace and honor, who would protect
private rights and respect the re-
straints of constitutional provision."

While the administration officials
have not expressed any opinion about
Mexico specifically, it has frequently
been stated informally that recogni-
tion would not be extended until the
constitutional machinery in Mexico
had been set in motion against to elect
a new president to succeed the pro-
visional president now acting.

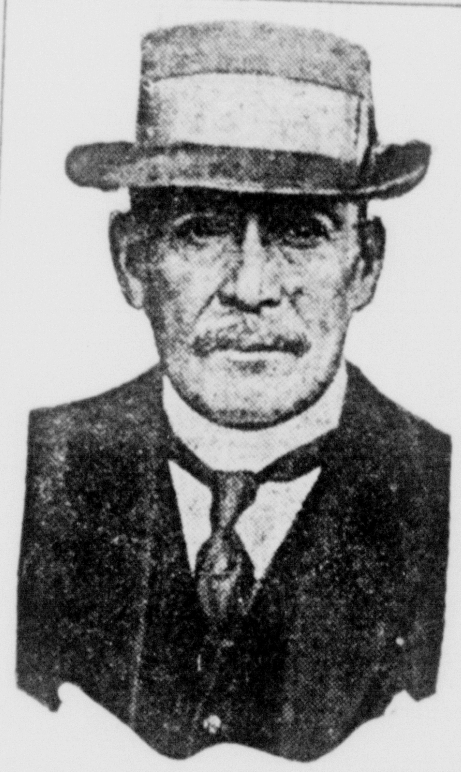

It is believed that in the meantime
every effort will be made to indicate
to the Mexican people that the United
States government expects protection
of its interests through the present
government.

HANGS IT ON 'EM

Constantinople, July 16.—The sul-
tan has decorated Mrs. W. W. Rock-
hill, wife of the American ambas-
sador; Major Ford and Secretary Alton
Davis of the Y. M. C. A., in recogni-
tion of the sacrificing services which
they rendered to Turkish wounded
throughout the late war.

PRESIDENT HUERTA

Plot to Kill the Mexican
Executive Is Frustrated.

It is said that conspirators have been
foiled in a plot to assassinate President
Huerta, General Felix Diaz and General
Blanco, the war minister. The inten-
tion was to use bombs at some opportune
moment when these officials were driving
through the streets. The picture above
was taken while Huerta was attending a
festival, and he was generously besprinkled
with confetti. But the expression of
his countenance is far from joyful and
seems out of place upon an occasion of
merriment. There is no doubt that the
care of his position bear heavily upon him.

PREPARATIONS MADE TO PROBE OHIO MINES

Operators and Miners Each
Select Four Representatives.

Columbus, O., July 16.—Ohio mine
operators and miners each will have
four representatives before the mine
investigation commission which is to
recommend legislation for the weigh-
ing of coal at the mines. Each also
will have two alternates, in case any
of the regular representatives can not
be present at sessions and at the in-
vestigations at the mines.

Both sides agreed unanimously to
have the commission investigate con-
ditions in at least one mine in each
of the 13 wage scale districts, as con-
ditions vary. Attempt will be made
by the operators and miners to agree
upon two mines in each district, one
to be selected by each party. In case
no agreement is reached each side
will designate the mine it wishes in-
vestigated, independent of the other.
After the mines which have been de-
signed have been investigated, the
commission may examine as many
other mines and such ones in the dis-
trict as it chooses.

Investigation of conditions at the
mines will be commenced Tuesday.
Operators selected the following
persons to represent them at the
hearings and the investigations at the
mines: E. A. Cole, Columbus; D. J.
Jordan, Cleveland; W. H. Haskins,
Coshocton; J. H. Pritchard, Colum-
bus. Miners will be represented by

BEAUTIFUL MRS. JOSEPH LEITER TURNS SHOEMAKER FOR CHILDREN'S SAKE FOLLOWING LATEST FAD IN PARIS

Washington, July 16.—Mrs. Joseph
Leiter has turned shoemaker. She
has taken up the latest Paris fad of
making one's own shoes. Mrs. Leit-
er, who is regarded in society circles
here and in New York and Chicago
as "the perfect mother of wealth,"
has fashioned shoes for her children
which are designed for solid comfort
in summer. The Leiters are at pres-

ent staying at their summer place,
the Glass House in the Woods, in the
Virginia woods, along the Potomac.
Instead of letting her little ones run
barefooted there she has done the
next best thing and has designed
their shoes something like the old-
fashioned sandals, made of cloth in-
stead of leather. Women of fashion
in Paris are all designing their own
shoes now.

ROYAL NUPTIALS

London, July 16.—The court cir-
lar announces the engagement of
Prince Arthur of Connaught and the
Duchess of Fife. The couple are sec-
ond cousins. The duchess was born
May 17, 1891, and is the daughter of
King George's eldest sister. Prince
Arthur of Connaught is the son of
King George's uncle.

Lord Hall of Cambridge, G. W. Savage,

shocton were chosen alternates.

A WEAKENED TRACK HELD TO BE CAUSE

TWO WRECKS IN OHIO DUE TO THE FLOOD

Four Persons Hurt In the First
and Five In Second.

Zanesville, O., July 16.—Four per-
sons, one a woman, were badly in-
jured when a passenger train on the
Ohio River & Western railroad rolled
into a ditch at Olive, 40 miles south-
east of Zanesville. Five were hurt
when two trains on the same road,
one a relief from the first wreck, col-
lided in the Perryopolis tunnel, near
Sarahsville, Noble county, and a few
iles distant from the first wreck.

General Superintendent D. Y. Ged-
des, Zanesville, directing the repair
work made necessary by flood, is
among the injured of the second
wreck.

A train consisting of an engine, a
baggage car and two passenger
coaches, waited on an embankment
at Olive to allow workmen to
strengthen a trestle damaged by a
cloudburst. The embankment had
been weakened by the rain and the
train toppled over into the ditch.

The injured: The engineer, three
ribs broken; Miss Nora Wilson, Som-
erton; Harrison King, Caldwell; John
McWilliams, Sarahsville.

The engineer was taken to his
home in Woodsfield on the work train
used for relief. This had gone only a
few miles when it collided with a
lumber train in the tunnel. Only five
were hurt, despite the fact that there
were 30 men in the caboose of the
lumber train. The injured were taken
to Sarahsville.

BRISTOW CAUSES STIR IN SENATE

Bryan's Reference to Salary the
Text of a Resolution.

THE SENATOR ASKS FOR LIGHT

Secretary of State Issues a Statement
Defending the Course He Has Plan-
ned—Will Spend Part of His Vac-
ation Lecturing On the Chautauqua
Circuit—Consideration of Resolu-
tion Blocked.

Washington, July 16.—Following
Secretary Bryan's statement that he
had to spend his vacation on the lec-
ture platform because he could not
live on the secretary of state's salary
of \$12,000 a year, Senator Bristow of-
fered a resolution calling on the pre-
sident to "advise the senate what
would be a proper salary to enable
the present secretary of state to live
with comfort and to enable him to
give his time to the discharge of his
public duties."

When the Bristow resolution was
read, amid Republican laughter, Dem-
ocratic Leader Kern and other sena-
tors immediately objected to its con-
sideration, and after a few brief ex-
changes it went over.

Later Mr. Bryan issued the follow-
ing statement:

"In devoting a part of my vacation
to lecturing I am doing what I believe
to be proper. For 17 years the sources
of my income have been writing and
lecturing. My earning capacity has
been large and I have made not only
an income sufficient for my immedi-
ate needs, but have saved on an aver-
age something more than \$10,000 a
year. In accepting the office which I
now hold I gave up the opportunity to
add to my accumulations, for I do not
expect to increase during my term
the amount I have laid aside—that is,
I am willing to forego whatever advan-
tage I might derive from the acquir-
ing of \$40,000 more for the privilege
of serving the country in this office
during the coming four years. I will
do more, if necessary, but I do not
believe that fair-minded people will
ask it of me.

"I would be glad to spend my vaca-
tions resting instead of lecturing, if I
could do so without eating in upon
the amount that I have laid away as
a protection against old age."

Caminetti-Diggs White Slave Case
Soon To Be Aired.

San Francisco, July 16.—The Diggs-
Caminetti white slave case and West-
ern Fuel fraud conspiracy cases were
set for trial by Federal Judge Van
Fleet for Aug. 5 and Aug. 26, respec-
tively. Special Federal Prosecutor
Matt Sullivan urged an early date be
set for both cases, declaring he and
his associates were ready to proceed
immediately. The judge ordered a
jury venire of 50 to be drawn at once.

Protest Against Prosecutor.

Washington, July 16.—Vigorous pro-
tests against the retention of Thomas
E. Hayden as a special prosecutor for
the noted Diggs-Caminetti white slave
cases in San Francisco were laid be-
fore Attorney General McReynolds by
Senator Ashurst, at the request of
several California Democrats. They
allege, among other things, that Hay-
den is a friend of the Caminetti fam-
ily and inexperienced.

years old.

WANT TRACTION TO WASHINGTON

Commission Appointed by Dayton Chamber of Commerce Instructed to Make Survey Between Dayton and This City With View to Forming Connecting Link by an Electric Road.

The Miami Valley Development Commission of Dayton is investigating the project of extending electric lines to various points surrounding that city, and the Dayton News of Tuesday mentions this city as one of the points where an attempt will be made to reach by traction.

The commission is now preparing to make a survey between Dayton and Washington for the purpose of further considering the matter of building an electric line.

At the present time the commission, which represents the Chamber of Commerce of Dayton and which is reported to be backed by capitalists who look with favor on the extensions, is making a survey between Dayton and other cities and towns of the Miami valley.

It will be recalled that a few years ago engineers made a preliminary survey of the probable course of a traction between this city and Xenia, and the figures and data secured are still on file in Dayton. An extension to this city would require new road from Xenia, as a good line reaches to Xenia.

It is the object of the commission to open new territory surrounding Dayton and to secure the building of tractions wherever the facilities for reaching the Gem City are not as good as they might be.

A SHARP INCREASE IN RATE OF TAXES FACED BY PEOPLE

Permit of Half Mill for Good Roads Purposes and Emergencies Clauses in Limit Law Will "Shove" Rate Up Considerably.

WILL RECEIVE BIG SUM
FROM THE STATE TREASURY.

Nearly Double Amount Paid in by County Will Come Back From State Authorities for the Purpose of Improving the Roads. December Installment Will be First Under New Rate.

Owing to the special one-half mill tax levy for good roads in the state and the issuance of emergency bonds to repair flood damages, there will probably be a sharp increase in taxes through the state, including this county, and the taxpayer will discover the increase at the next payment of taxes following the present June collection.

In a letter received from the State Tax Commission, Auditor Henkle is informed of the increase that may be made under the special acts, over and above the famous "1910 limit" plus nine per cent.

In this county the levy for good roads will be about \$18,750, which amount goes into the general fund of the state, and when the collection is made in every county the amount that will come back to Fayette county to be used in this county for good roads will be about \$34,000, according to figures given out by Auditor Henkle.

Just what the rate will be in this county will be determined when the Budget Commission finishes its work, and while a decided increase is expected, it will probably not be nearly the limit which the new law permits.

Taking Concord township as a basis for figuring on the new tax limit, the following comparisons result.

In 1910 the tax levy in Concord township was \$10,928, and with the addition of nine per cent this year it reaches \$11,912.

With the estimated valuation of the property for 1913 the rate would be 6.4 mills, and when to that amount is added .5 of a mill for good roads and 2 of one mill for emergency bonds, the total rate would be boosted to 7.1 mills, or \$13,192, an increase of \$2,284 over the 1910 levy.

The following information taken from the Tax Commission's letter to Auditor Henkle, will give some light on the question of higher taxes which is now faced by every taxpayer in the state.

Extracts from the letter read:

"The attorney general further holds that what is known as the '1910 limitation' will be effective as to the tax levies for the year 1913, and that except as to the one-half mill levy for good roads and the levy for emergencies, the aggregate amount of taxes which may be levied in any taxing district for the year 1913, may not exceed the aggregate amount of taxes levied in the same district for the year 1910, plus nine per cent.

"The one-half mill levy, above referred to was made by the legislature at its recent session and will be certified to you by the auditor of state with the other state levies. However, by the provisions of the act making the levy it is specified that this levy may be in addition to all limitations upon the aggregate amount of taxes or the aggregate rate in any taxing district.

"As the law stands now, 15 mills is the maximum rate which may be levied in any taxing district, except that the one-half mill levy for good road purposes above referred to, any levies made under the provisions of Section 5649-4 and for flood emergencies may be in addition thereto. These levies may also be in addition to the ten mill limitation and to the '1910 plus 9 per cent' limitation."

BANKERS FIGURE IN AUTO MISHAP

R. B. Rice and Herbert Taylor, bankers, of Mt. Sterling, nearly met death when their auto turned turtle Tuesday while they were on their way to London.

The men were moving at fair speed when their auto skidded on the muddy road and a moment later had plunged over a culvert, landing upside down in the ditch, and hurling both men to the roadside.

Mr. Rice suffered injuries that may confine him to his home for some time, his right leg, back and left side being worst injured.

Mr. Taylor was more fortunate and escaped with a severe jolting when he struck mother earth after leaving the auto. The machine was badly wrecked.

AUGER PENETRATES BONE OF MAN'S ARM

Tuesday, while R. C. Tefft, an employee of the Chair factory, was operating a boring machine his hand slipped under the rapidly revolving auger and an instant later had penetrated his wrist, eating deep into the bone, cutting and splintering it in a horrible manner.

The machine was stopped before the auger cut through the arm. It will be weeks before Mr. Tefft can return to work.

HARVEST DELAYED BY WET WEATHER

Farmers are very much disappointed this week because of the continued rains which prevent threshing and hay harvest, and they are very anxious to see a few bright days in order that they may have their wheat threshed and placed in the dry before it is damaged by the wet weather.

Hay harvest and wheat harvest are both requiring immediate attention, and every moment of favorable weather is being utilized in placing both hay and wheat in shelter.

Both the wheat and hay crops are above the average this year and will require more than the usual length of time to handle.

So far the rain has not caused any serious damage to either wheat or hay.

LOVELY WOMAN NOW SWATHES HER WAIST WITH HIGHLAND PLAIDS

Illustrated here is the latest Parisian idea of what a modish walking dress should be. This model, which was designed by a famous French modiste, is of navy blue serge, the skirt gracefully draped, and the bodice swathed with a very wide silk sash of Scotch plaid. The neck is cut low, and the short sleeves with their low shoulder lines are finished with lingerie collar and cuffs embroidered in colors.

The Year 1913

The continual warring of the elements in certain sections—the cloud bursts, electrical storms and hurricanes, fitted in with some of the grandest growing weather ever known—hold for many, an argument that proof of the ill luck of the figures "13" is being furnished.

Whether the figures "13" at the end of the present year, as years are numbered, is responsible for the many extremes of storm and weather which have afflicted the people this year, or not, need not be discussed.

This has, however, been a year decidedly out of the ordinary so far as weather conditions are concerned.

Perhaps never since weather records have been kept by the authorities has there been so much out of the ordinary to set down.

In this section (speaking generally) temperature records have been smashed to bits and the devastating floods of March last, breaking all known records and silencing those who relied upon tradition, are still fresh in the minds of all.

Italy now comes forward with a tale of destruction by wind and rain and flood, and with a temperature lower than has been recorded for over six centuries.

Sunny Italy is no longer a fact. Rome shivers in midsummer and Naples is wrapped in a damp blanket which has chilled vegetation to the point of annihilation.

At Messina and other cities and towns in Italy's fruit belt the loss reported by reason of cold weather, the like of which was never known, is simply appalling.

Closer home, from the city of Zanesville, the city so sorely stricken during the March floods, come reports of damage to buildings and crops by cloud bursts and floods of such magnitude that human beings stand aghast.

Disasters of course, we always have had and always will have so long as man and the elements are not in accord, but the very multiplicity of disasters this year is a test to man's intelligence and strength.

When man stands appalled in the presence of forces beyond his control, he realizes his weakness and with his demand for a reason for all things, unable to find one, he constructs a reason himself and that is just where superstition creeps over him.

Still Willing to Sell

This man, Martin M. Mulhall, a self-styled corrupter of legislators, strike-breaker, lobbyist of the worst type, faker of interviews, and apparently proud of the nasty record he builds for himself, is creating quite a commotion with his disclosures.

Judging from his conduct so far, Mulhall is one of those unfortunately constituted human beings who talks entirely too much for his own good and the good of the cause he is espousing, if there is any real good to be found in either.

He is now quoted as having stated that he possesses letters and papers easily worth fifty thousand dollars to any newspaper and that he will sell the information which came to him in a confidential capacity if it came at all, to the highest bidder, unless the parties he claims formerly employed him, buy back their own property.

In that statement, if Mulhall is quoted correctly, he wipes away every presumption of his sincerity and every reason why his story should be believed.

In that statement he furnishes proof that his claims of reformation and desire to do good have no foundation in fact. He proves that he is now trying to commercialize his pretended virtue as he admits he capitalized his vices.

The American people never did and do not now take kindly to a betrayal of confidence reposed and have always looked with suspicion upon man who is willing to sell the truth to the highest bidder.

Mulhall tells a startlingly sordid tale of vice and fraud. He admits his part in the drama upon which the final curtain has been rung down, but his claimed repentance and confession coming at a late day in exchange for money to be delivered to either side—the forces battling to improve conditions or to the forces striving to thwart justice—whichever pays him the most money, stamps him as a man whose statements should be received with caution if not disregarded entirely.

He admits having sold out and avers his willingness to be bought again.

Idealism Is Dead In America

By General RUSH C. HAWKINS, Colonel of the Famous Hawkins Zouaves in the Civil War

IDEALISM IS VIRTUALLY DEAD IN AMERICA. THE GREAT PRE-OCCUPATION OF NEARLY ALL OUR PEOPLE IS TO MAKE ONE CENT GO AS FAR AS A CENT AND A HALF.

My countrymen inspire me with LITTLE HOPE OF THEIR FUTURE. Americans do not know really what is the true worth of life. Degeneracy is general. I, for one, am unable to predict where it will end. The worst feature of it is that our BOASTED INTELLIGENCE DOES NOT SHINE ANY TOO STRONGLY in certain features of our public opinion.

Poetry For Today

"NO-SURRENDER OATES."

"It was blowing a blizzard. Oates said: 'I am just going outside, and I may be some time.' He went out into the blizzard, and we have not seen him since."—The Diary of Captain Scott.

It was not in the fury and the foam, The swift, earth-shaking tumult, and the shout Of close-knit squadrons riding hard and home, That he went out.

For him no trumpets called with jubilant blast, Only the ice-wind's everlasting moan;

Alone into the solitude he passed, Yet not alone.

For joyfully the long line of his peers, Most joyfully those staunch old bands and true,

Which rode at Balaklava in far years, And Waterloo.

Warburg, and Paardeberg, and Dettingen,

Watched him go out into the deathly wild—

Ay, many valiant souls of mighty men

Saw that, and smiled.

INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

The dome of the National Capitol is more than 90 feet in diameter, which establishes its right to be called big, but its bigness probably would be better understood by the statement, made in connection with the work of repainting, which is now under way, that 65 tons of paint are to be used. Stated another way, that much paint means 240,000 gallons or enough to cover 132,000,000 square feet of surface. It will take 10 weeks to do the work, with a large number of painters on the job daily.

The Goddess of Freedom will be first given a soap bath and made to shine. The painting alone costs \$16,000 and is a triennial job. In the tiara which the Goddess wears there are 7 aluminum jewels or spikes to protect her again the thunderbolts of Jove. These jewels cost \$100 each and are also renewed.

The ideals of a general education are changed from a generation ago, more than mere book knowledge is expected. The New York Post speaks of finding a list of graduation topics published in a book dated 1844. Then the youthful mind discoursed on "Mythology," "Moonlight at Sea," "Spring," "The Equator," "Review of the Seasons," "The Art of Pleasure," "Taste for the Cultivation of Flowers," "Tragedy," "Women," "More Effects of Paintings and Sculpture," "The Lily," "The Rainbow." Then consider the change. This year's graduation exercises of a Vermont High school, 14 miles from a railroad, were on the following topics: "The Presidential Cabinet," "A New Phase in School Athletics," "Heroism in Song and Story," "Education for Efficiency."

Harold G. Vanderbilt has sailed from Portland, Me., on his racing yacht, Vagrant, for English waters, where he hopes to meet and promises to defeat Lipton's new 75 footer. He has stripped his craft of all racing canvass and shipped it to the other side and his crew has been busy trimming the Vagrant with sea-going sails and taking on stores for a voyage of some 15 days, which she will take to make the crossing. It is planned to enter the German Kiel races, if the boat makes the showing anticipated in the British events off Cowes.

How many mines are there in the U. S. This is a question often asked says the Engineering and Mining Journal. As nearly as we can determine there are about 6500 coal mines. Of metal mines there are about 6000, producing and developing. With respect to refineries, etc., we can speak more accurately. There are 54 copper smelters, 28 lead works, 28 zinc and 314 iron works. We have 189 steel plants, thus making a total of 613 metallurgical works of all classes.

"SMELL MOUSE"

MEN DETECT A JOKER

Little Word "All" May Cause Strike On Eastern Roads.

New York, July 16.—The danger of a strike on the eastern railroads, which have refused the demands of the conductors and trainmen for 20 per cent increase in pay, is declared to be imminent in spite of the passage of the Newlands amendment to the Erdman act. The union men, who are represented by A. B. Garretson and W. G. Lee, charged that the committee of managers acting for the railroads had been guilty of sharp practice by failing to live up to the letter of the understanding which brought about the White House conference. The union leaders declare they attended the conference solely to co-operate with those interested in finding a peaceful way to settle the wage question now pending. The railway officials say they agreed to arbitration on the ground that the question of pay and "all" other differences with the men would be taken up and threshed out at this time. The little word "all" may cause a strike.

THE NEW HUNTING LAW

IS STRICT IN DETAIL

Every Nimrod, Unless He Hunts on His Own Land or Land He Has Under Lease, Must Secure License and Carry It With Him While on the Trail.

PERMIT FROM LAND OWNER ALSO MUST BE OBTAINED.

Clerk of Courts Will Issue License and Tags, the Latter to be Conspicuously Displayed by Mr. Hunter—Information Every Nimrod Should Paste in His Hat for Future Reference—Law Takes Effect August 10th.

The new hunting law, enacted by the recent general assembly, takes effect August 10th, and already inquiries have been pouring in asking information about the new law, which makes it compulsory for every hunter who hunts on other people's land to carry a license, and also prohibits boys under 16 years of age from hunting unless accompanied by their parents.

If the nimrod lives in Ohio and wishes to hunt upon the property of another man, he must first obtain a license from the Clerk of Courts,

which will cost him \$1 and must make affidavit setting forth a general description of himself. This costs him 25c. Then after having obtained consent of the property owner he can sail in, but must not kill more than 25 of any game, either one species or of all species of game.

If he lives outside the state it will cost him \$15 to obtain a license. In addition to the above each man who has a license must have a license tag and wear it where it can be seen. Only one badge or tag is necessary, however. He must show his license to anyone who may demand to see it.

Each license expires on December 31st next after its issuance. The money derived from the license will go toward protecting fish and game, and toward restocking streams with fish and restocking the state with various game fowls and animals.

No license is transferrable, and a heavy fine is the penalty for one man to carry the license of another. Each day a man hunts without a license is made a separate offense, and the penalty is heavy fine or imprisonment or both.

The new law is expected to eliminate a large amount of hunting, and the license provision will replenish the treasury of the Fish and Game Commission so that additional deputy state game wardens may be hired to force an observance of the new law.

HUNTINGTON WILSON.

Ambassador to Mexico, Who is hurriedly Summoned to Washington by the President for a Conference.

Mexico, presumably to confer on the Mexican situation.

A great deal of significance attaches to the movement owing to the present ticklish condition now existing in Mexico.

PICNIC AT ROCK MILLS

The entire force of the S. S. Cockerill store celebrated the first Wednesday half holiday by picnicking at Rock Mills. They took well filled baskets and the afternoon was thoroughly enjoyed.

Buena Vista

Mrs. Elmer Patton, Edgar Patton and wife visited Jonah Marchant and wife at Leesburg, Sunday.

Bert Rose and family of Greenfield, were Sunday guests of J. S. Zimmerman and family.

Friday's visitors: Mrs. Fannie Baker and Mrs. Cora Robinson with Mrs. Lucile Stoops; Miss Kate Wright and Mrs. T. W. Smith with Mrs. John Clark; Miss Ella Haines and Mrs. Martha Capps with J. E. Haines. C. E. Cockerill and family, A. R. Toddhunter and family were callers in this vicinity Sunday.

Some damage was done here by the high winds the past week.

REITERATE DECISION OF NO BACK STEP

Members of the Law and Order League reiterate their determination to continue in their efforts to better the moral conditions of the city, and deny the reports circulated that the league had "laid down" or intended to do so.

"We will live up to our announcement that there would be no backward step on the part of the League," said one member.

Rabbit Smith, who was held on a charge of bootlegging, was released from custody Tuesday afternoon, while Alfred Brown, who was found guilty before Mayor Creath and fined \$100 and the costs, may be sent to the Xenia workhouse to work out the fine and costs.

Mayor Creath, who has not fully recovered from his recent illness is now taking treatment in Columbus, and hopes to return fully recovered within the next few days.

Whether the reiteration of the statement that no backward step will be taken by the Law and Order League has any special significance is a matter of pure conjecture only as the members of the League refuse absolutely to give out any detailed information as to plans for the future other than to reiterate their former general statement.

MENTIONS BEVERIDGE

Mulhall Continues His Testimony Before Senate Lobby Probers.

Washington, July 16.—Martin W. Mulhall, continuing his testimony before the senate lobby investigating committee, identified 410 additional letters, telegrams and memoranda. He told of a visit to Indianapolis, where D. M. Parry, former president of the manufacturers, introduced him to a number of men. He said he met Senator Beveridge there, and that he saw Beveridge throw his arms around Parry and say he was the man who sent him to the United States senate.

Mulhall told of how he broke a strike of shoe workers in St. Louis. He swore that \$3,000 had been turned over to him by F. C. Schwedtmann, secretary to Van Cleave, to pay the strike leader to end the difficulty.

Mulhall declared the National Association of Manufacturers solely created the tariff commission.
